# ZEN POLICY
Cyber & Technology
BY ZENCONTRACT

Elevate your Managed Service offering with Policy as a Service

ZenPolicy is a new platform for MSPs to resell policy management as a service to their clients. Whether it's fair usage, BYOD, or remote work, **any cybersecurity and technology policy can be created, executed and managed across your client base.** For a flat monthly fee per client tenant with zero term commitment, this is a flexible, strong value-add you can now offer to elevate your managed service.
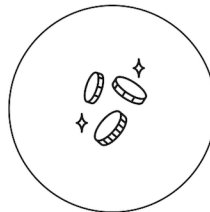

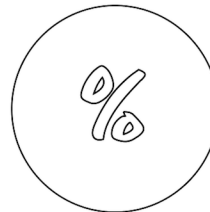

Policy-as-a-Service: MONETISE & MITIGATE

CONTROL CLIENT RISK	GET STICKIER CLIENTS	GENERATE MRR	75% MARGINS	SYSTEM INTEGRATED

Microsoft 365 · datto | AUTOTASK PSA · CONNECTWISE

Key Features of ZenPolicy:

- **Policy template library** for ease of creation and customisation
- **Policy repository** with version control and tracking
- **Secure distribution** via Zen's platform to ensure your client's end users receive and sign
- **Audit & reporting** to track compliance, identify gaps & scheduled reporting.
- **Seamless integration** with existing systems including Microsoft 365 & your PSA (ConnectWise Manage or Autotask).
- **Multitenancy** to securely manage multiple clients from a single interface.
- **Data protection** via robust authentication, encryption & access control to safeguard your client's sensitive information.

$99 RRP per month per end client.

75% margin

ZenContract's reseller program: Driving MSP growth & profitability
ZenPolicy is 100% channel-only with high margins & hands-on support to help you implement policy-as-a-service across your client base.
